

# Sodium Lauryl Sulfate 30% and 94% - Needles

Anionic surfactant

**STANDARD**

Line

**Macler\***

## Cosmetics

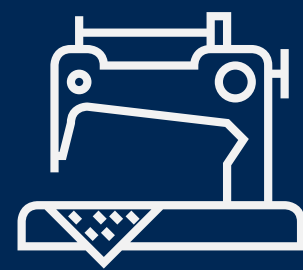

**Foamer**  
**Emulsifier**  
**Thickener**  
**Humectant**

## Hygiene and cleaning

**Active ingredient**  
**Foamer**  
**Emulsifier**  
**Thickener**  
**Humectant**

Textile  
Humectant

Construction  
Concrete aeration  
Plastering compound

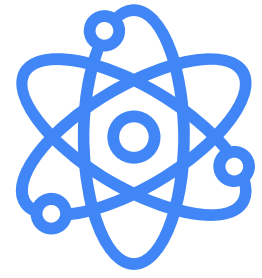

Agricultural  
Emulsifier  
Humectant

**X** **Contraindications  
and situations to avoid**

Incompatible with cationic products and sodium hypochlorite.

## Physical-chemical specifications

Parameters	Sodium Lauryl Sulfate 30%	Sodium Lauryl Sulfate 94% - needles
Physical State, 25°C	Liquid	Solid
Color	Colorless to yellowish	White to slightly yellowish
Active Matter (%)	Min. 28	Min. 93
Sodium Chloride (% w/w)	Max. 0,6	Max. 0,6
Sodium Sulfate (% w/w)	Max. 1,5	Max. 4,0
pH, 25°C	11,0 - 12,5	-
pH sol. 1% aqueous, 25°C	-	8,0 - 11,0
Gelation temperature	12°C	-

## Homologation

Contact our sales team and request a sample for testing and homologation!

# TrustScan®

All of our Standard products go through **TrustScan!**

A **methodology** that ensures the quality of the product at the time of application. We believe that a product with the **correct concentration** is the minimum we must provide.

**TrustScan** is more than an anti-fraud seal!

Due to the fact that it is one of the most traditional surfactants and has a low price, it is often adopted in cases where its performance does **not present** a cost-benefit ratio. After all, a low price does not always indicate a low cost in the application inside the formula.

To find out if you are using this product in the most cost-effective way and discover other solutions focused on **cost-benefit**, count on our Smart**Lab**!

**SmartLab** is a research and development department entirely dedicated to our active customers.

Live the **experience** of having a **strategic** partner at your service. Count on Smart**Lab**!

Contact our sales team. We will offer all our **know-how** to your product. If you have any questions, please contact our Smart**Lab**.

**Macler\***

Our chemistry  
in **harmony**  
with your routine.
