

Macler*

Noxipon PCVN

Thickening carbomer
for alcohol gel and gels
in general.

NOXIPON
Line

Applications

COSMETICS

- Alcohol gel 70% (antiseptic gel)
- Stabilizer for emulsions and suspensions
- Hair styling gel

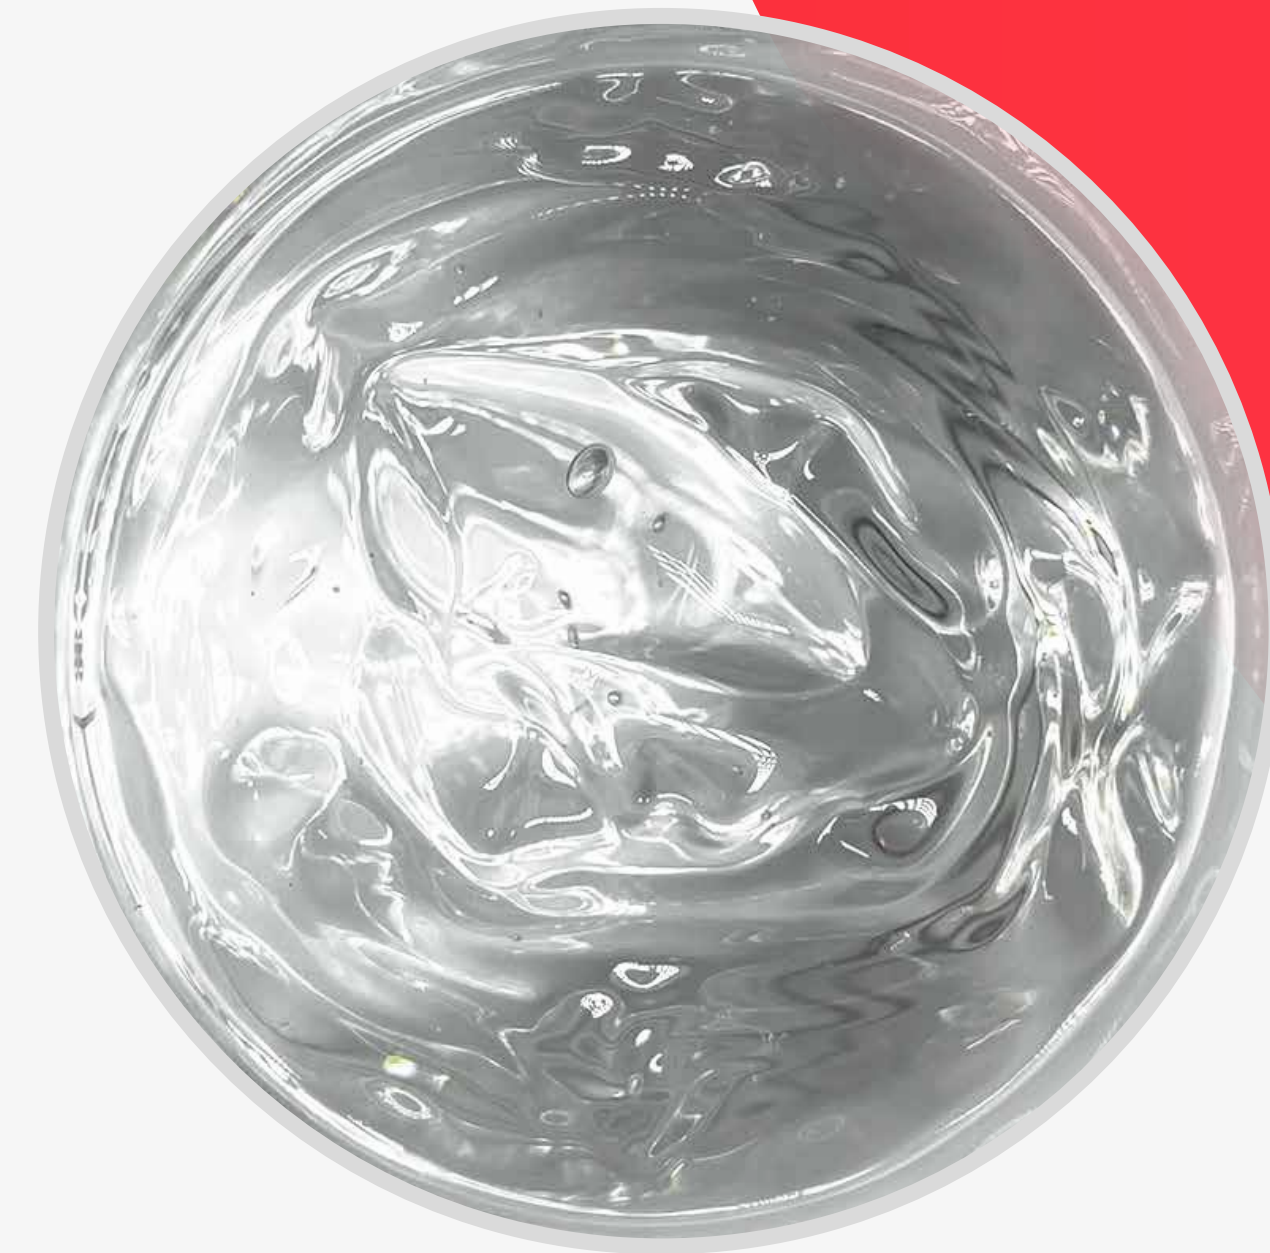

SANITIZER

- Alcohol gel 70% (sanitizing for surfaces)
- Alcohol gel 80% (charcoal lighter and rechaud)

AGRICULTURAL

- Stabilizer for emulsions and suspensions

Benefits

High viscosity.

Cosmetic product quality.

Great benefit–cost ratio.

Low dosage.

High translucency
(even in high-alcohol formulations).

Does not
make skin sticky.

We suggest **Isogen DG** as neutralizer for **Noxipon PCVN**.

Isogen DG is an **alkalizing** agent that does not require army licenses and has reduced concentration needed (around twice lower than triethanolamine).
